ABOUT US

Artiteq's smart, sustainable hanging and display systems transform every wall into a limitless canvas. For almost 35 years, our family business has inspired art connoisseurs, interior décor enthusiasts and companies around the world to give every space its own ambience and energy. Our solutions are both functional and stylish, whether you wish to create a cosy homely atmosphere, have artistic freedom, create an interior to guarantee maximum impact, or ensure effective routing.

In 1991 we took the first small step of our adventure, at home in the garage of founder Jan van Boxtel. Today we are active in more than 80 countries and sectors. You will find us in DIY stores, in the education and property remodelling sectors and in art galleries. Our product range now also includes window displays, display systems and signing hanging systems, always underpinned by quality, flexibility and creativity.

HOOKS

Artiteq offers a wide variety of hooks, developed to use in combination with hanging wires and picture hanging systems. Taking into account several criteria such as weight, ease-of-use, choice of material and security. The Artiteq range of hooks comprises products that can handle weights varying between 4 kg and 20 kg per hook. The size of a picture or wall decoration determines the weight .
