IN PRIMARY SCHOOLS

ARTITEQ.COM

Artiteq®
in primary schools

A primary school buzzes with energy and life: enthusiastic children keen to learn, full of creativity and eager for a new school day! Children learn and express their creativity in the most beautiful drawings, crafts, paintings and decorations. As a teacher, how do you put all these works of art on display? Without stringing up a clothesline through the classroom, putting sticky tape on the windows and using drawing pins in the walls? That's where Artiteq's solutions come in!

Lots of creativity on display, no damage to walls

No more sticky tape, drawing pins and damaged walls. Artiteq offers various hanging solutions for the easy and neat hanging of drawings, crafts, decorations, teaching materials and notices. All products contribute to a tidy and orderly environment where flexibility and durability are the basis. Messy walls, classrooms, corridors and teachers' rooms are a thing of the past, making way for a professional and inspiring result that radiates pride.

Always suitable for your school

All sorts of things need to be hung up in a school building: notices for parents in the school corridors, pupils' drawings and teaching materials in the classrooms, and notice boards and whiteboards in the senior section classrooms and the teachers' rooms. Take a look around your school and you will be amazed at everything hanging on the walls. Artiteq's hanging systems offer a practical and versatile solution. For both pupils and teachers.

A proven solution

A specialist in hanging systems since 1995, Artiteq offers innovative solutions for your needs, from hanging paintings to window displays and signage! We have also developed a product line specifically for primary schools. Whether it is a single classroom or an entire school building in need of solutions, we have the right products to give your school that extra touch. Countless schools have gone before you, with enthusiastic reactions from teachers, headmasters and pupils.

Discover in this brochure how we can help your school. Together, we provide an inspiring environment where both teachers and pupils feel at home.

Artiteq - because every school is unique.

EXPERIENCES OF SCHOOLS

"Large numbers of pictures hang on the classroom walls. For example in group 3, word charts and in higher groups, maps of the world. The lessons and themes change regularly, of course, but this system allows the pictures to easily be changed accordingly. Craft works and drawings are also displayed on the walls."

Assistant principal Shanti Dewki-Chedi - CBS De Sleutel Rotterdam

---

"The children loved seeing their creations up on the wall. We liked it so much that we ordered more Info Rail to use in the middle and senior sections as well."

Senior Section Coordinator Thea Verbeek – primary school De Morgenster Sleeuwijk

---

"We hung the info rail both inside and outside the classroom. Inside, we hung them at child heigh. The system is so userfriendly that pupils can hang up and display their own artwork easily and in a neat and wellorganised way. It's a highly active system and everything just looks so neat and colourful."

Teacher Cor - Emousschool The Hague

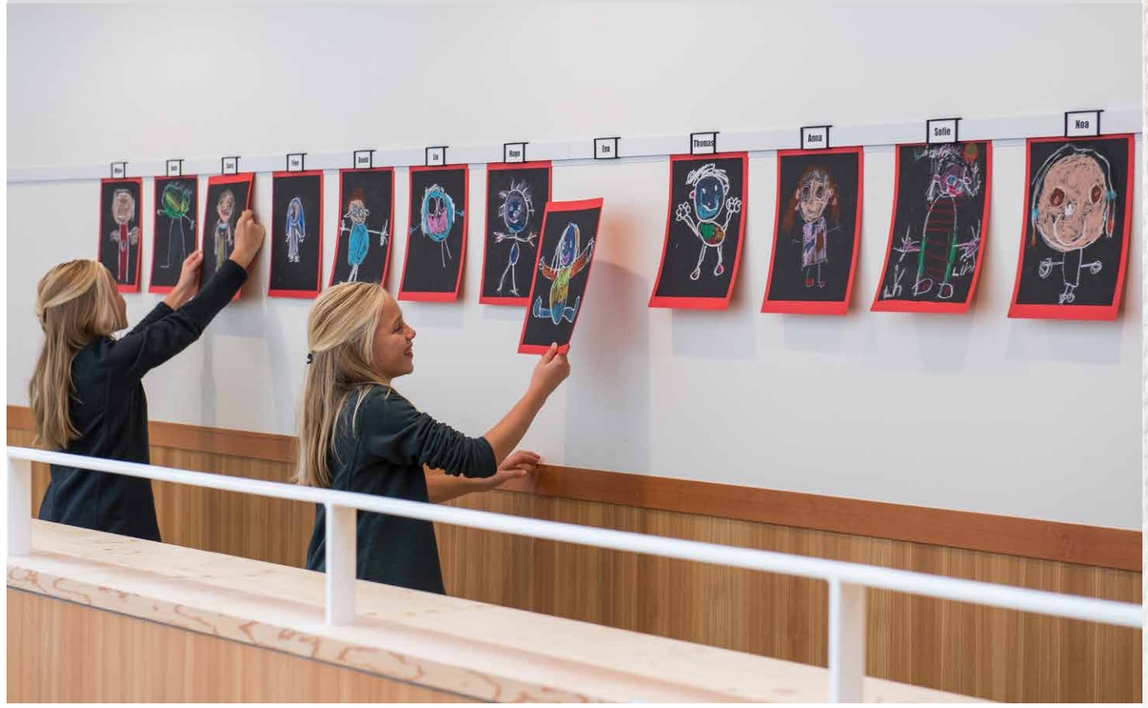
INFO RAIL

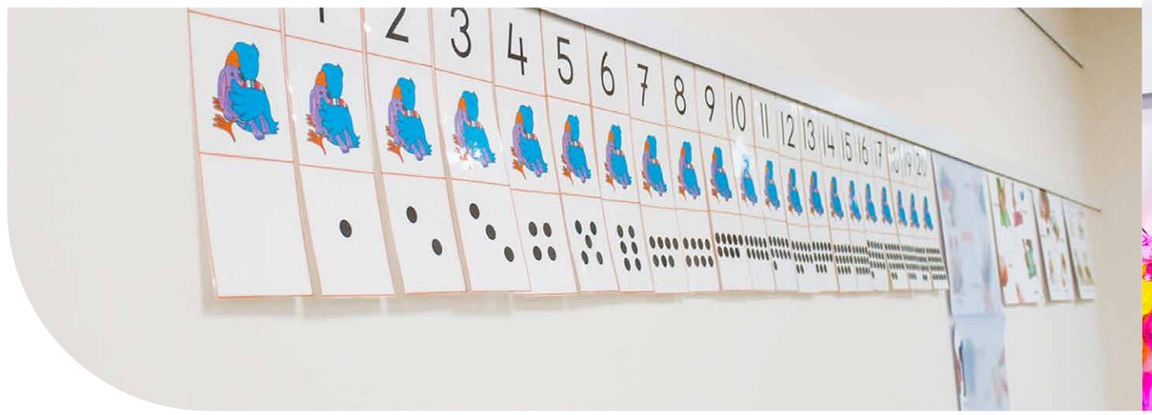
indispensable hanging system for the classroom

Today a snowman, tomorrow a self-portrait

At school, something new happens every day - and this is reflected on the walls. But playful does not have to mean messy. A bit of order in the classroom is just as important. Info Rail offers the solution: a clear and stylish presentation system that neatly displays drawings and documents on the wall.

Once assembled, you have a solution that you will enjoy for years. No more wall damage from drawing pins or sticky tape, and new drawings can be put up in no time at all. Functional, durable and easy to use, exactly what a school needs.





ME-CLIP

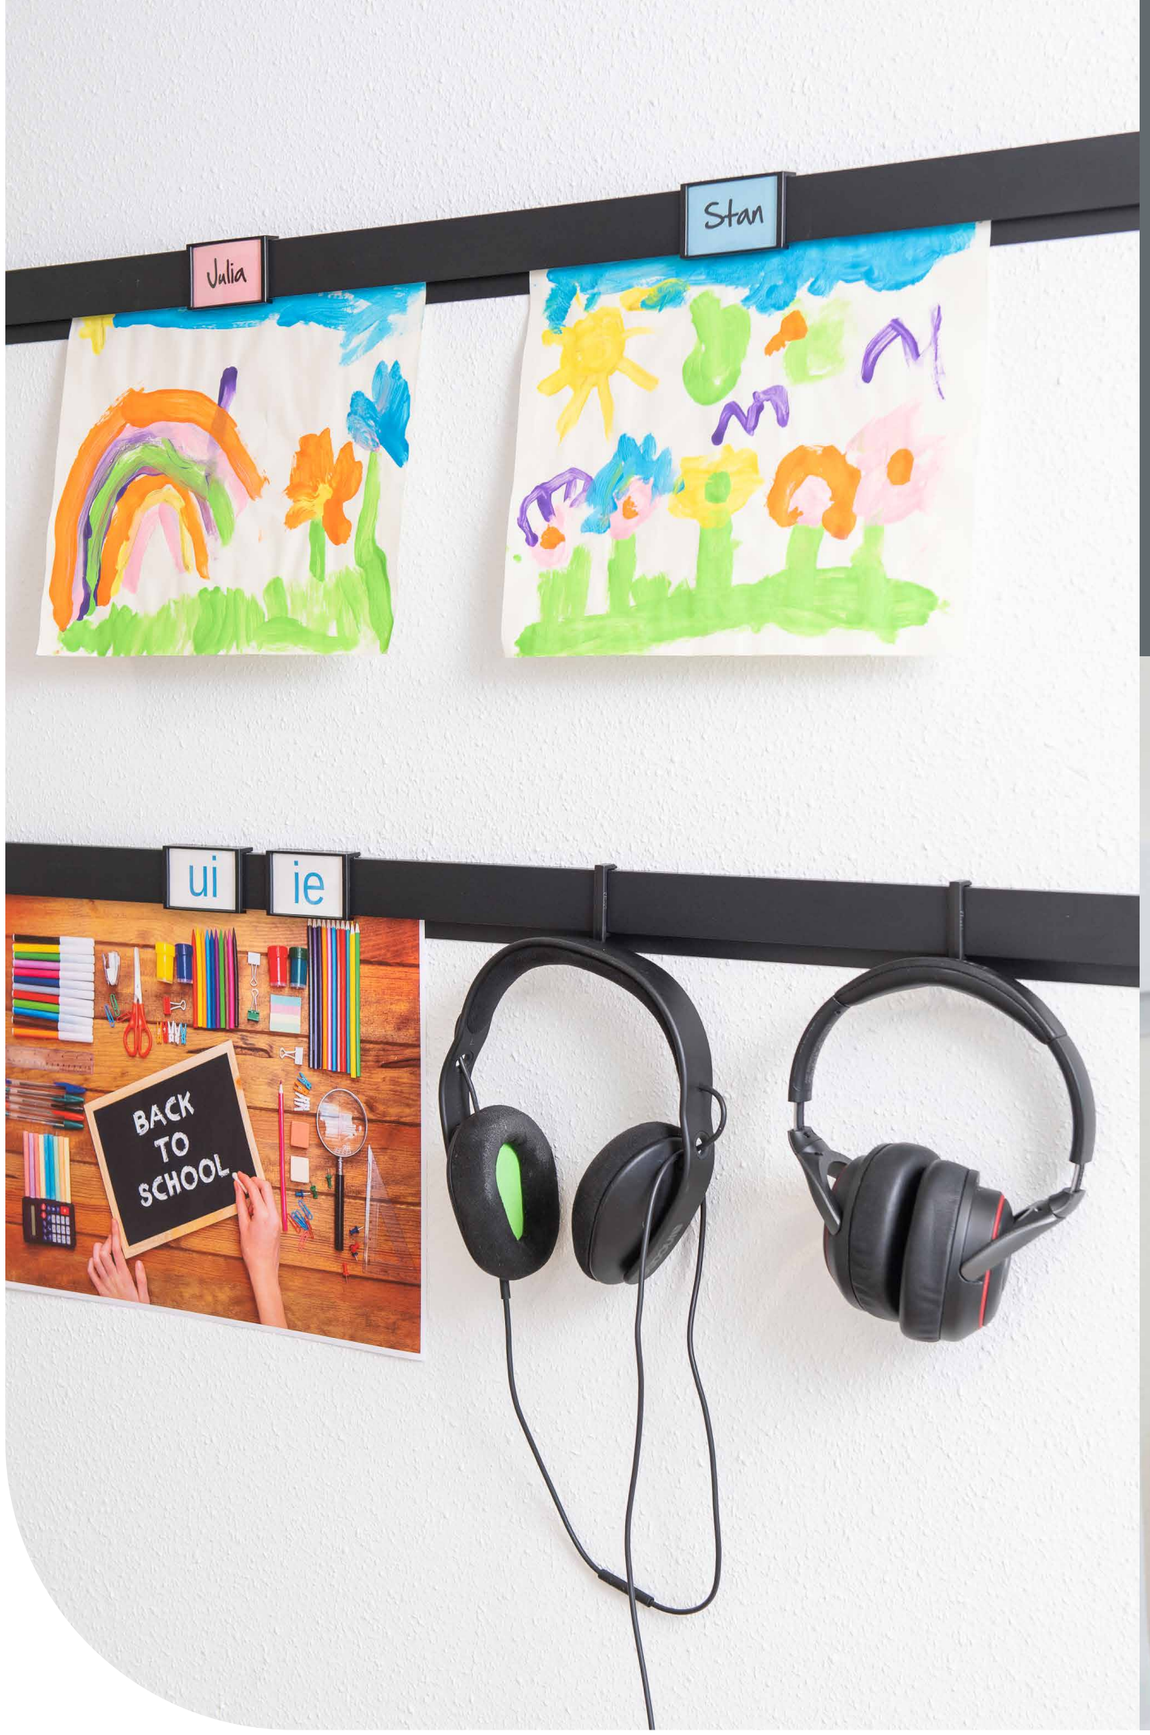
handy, beautiful and personal

There is nothing more festive than children's artworks and schoolwork proudly displayed on the walls of the school. With eyes aglow, they point to their own creation, a moment of pride that becomes even more personal now thanks to the Info Rail Me-Clip. This special name clip, available in white and black, makes every piece of work unique and recognisable.

With the Me-Clip, the Info Rail becomes not only functional, but also personal. Each child gets his or her own clip, on which their name can be written or designed. A small adjustment, but with a big impact: it adds a special touch to the presentation and makes the system fully customisable, time after time.

But the Me-Clip is not just for the kids. Teachers and administrators can also use it as a smart communication tool. Whether displaying announcements, important documents or creative projects, the Me-Clip offers a flexible and stylish solution.

With the Info Rail Me-Clip, you get more than just a hanging system. You create a space where pride, personality and functionality come together.

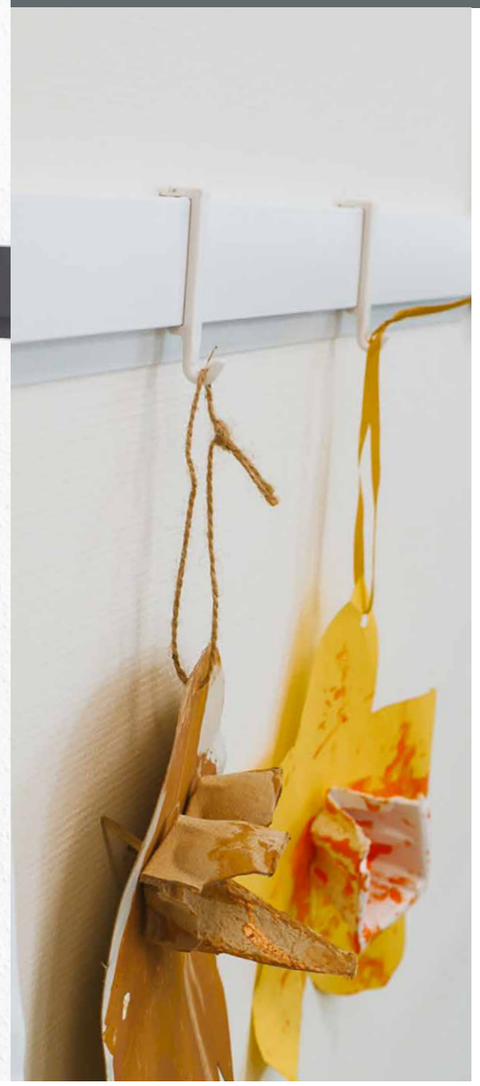


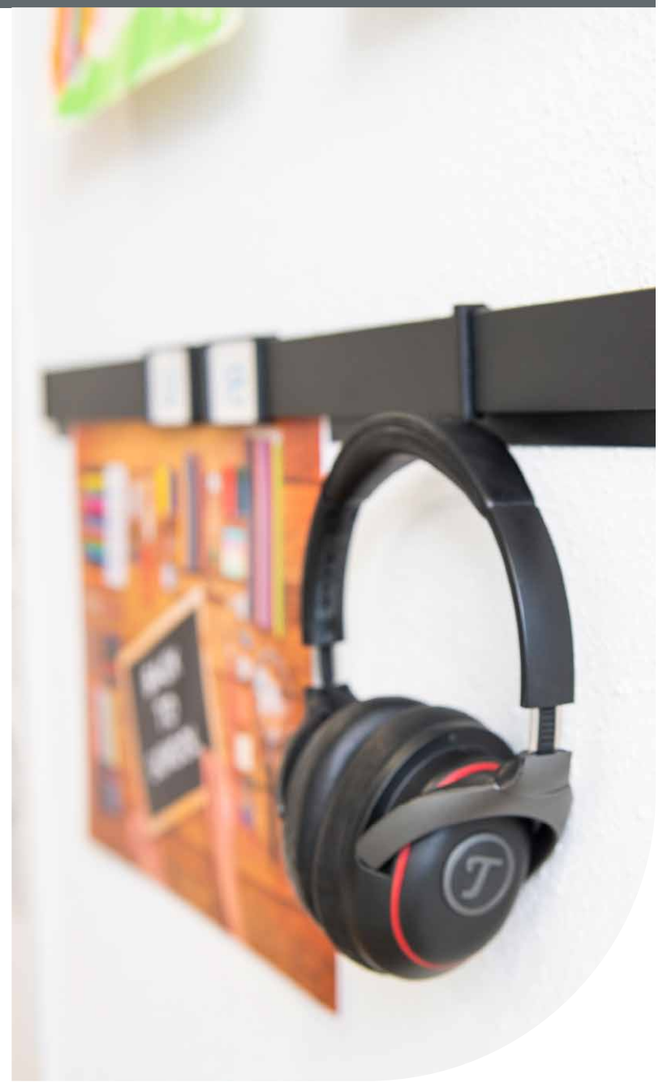
CLIP HANGER
a useful hook

School is a place buzzing with creativity. Children are in full crafting mode: a cheerful spider, a colourful boat made from a toilet roll or ice cream sticks, all inspired by seasons or themes. They want to proudly show off their creations, but where do you hang them so they can really shine?

The Clip Hanger makes this a piece of cake. This little hook, available in white and black, clicks effortlessly onto the Info Rail. Perfect for hanging crafts safely and stylishly. Combine it with the Me-clip and give each piece a personal touch, with the creator's name, for example.

This way, the children's artworks not only get a place of honour on the wall, but also the attention they deserve. A simple solution, a big difference and proud, happy children!





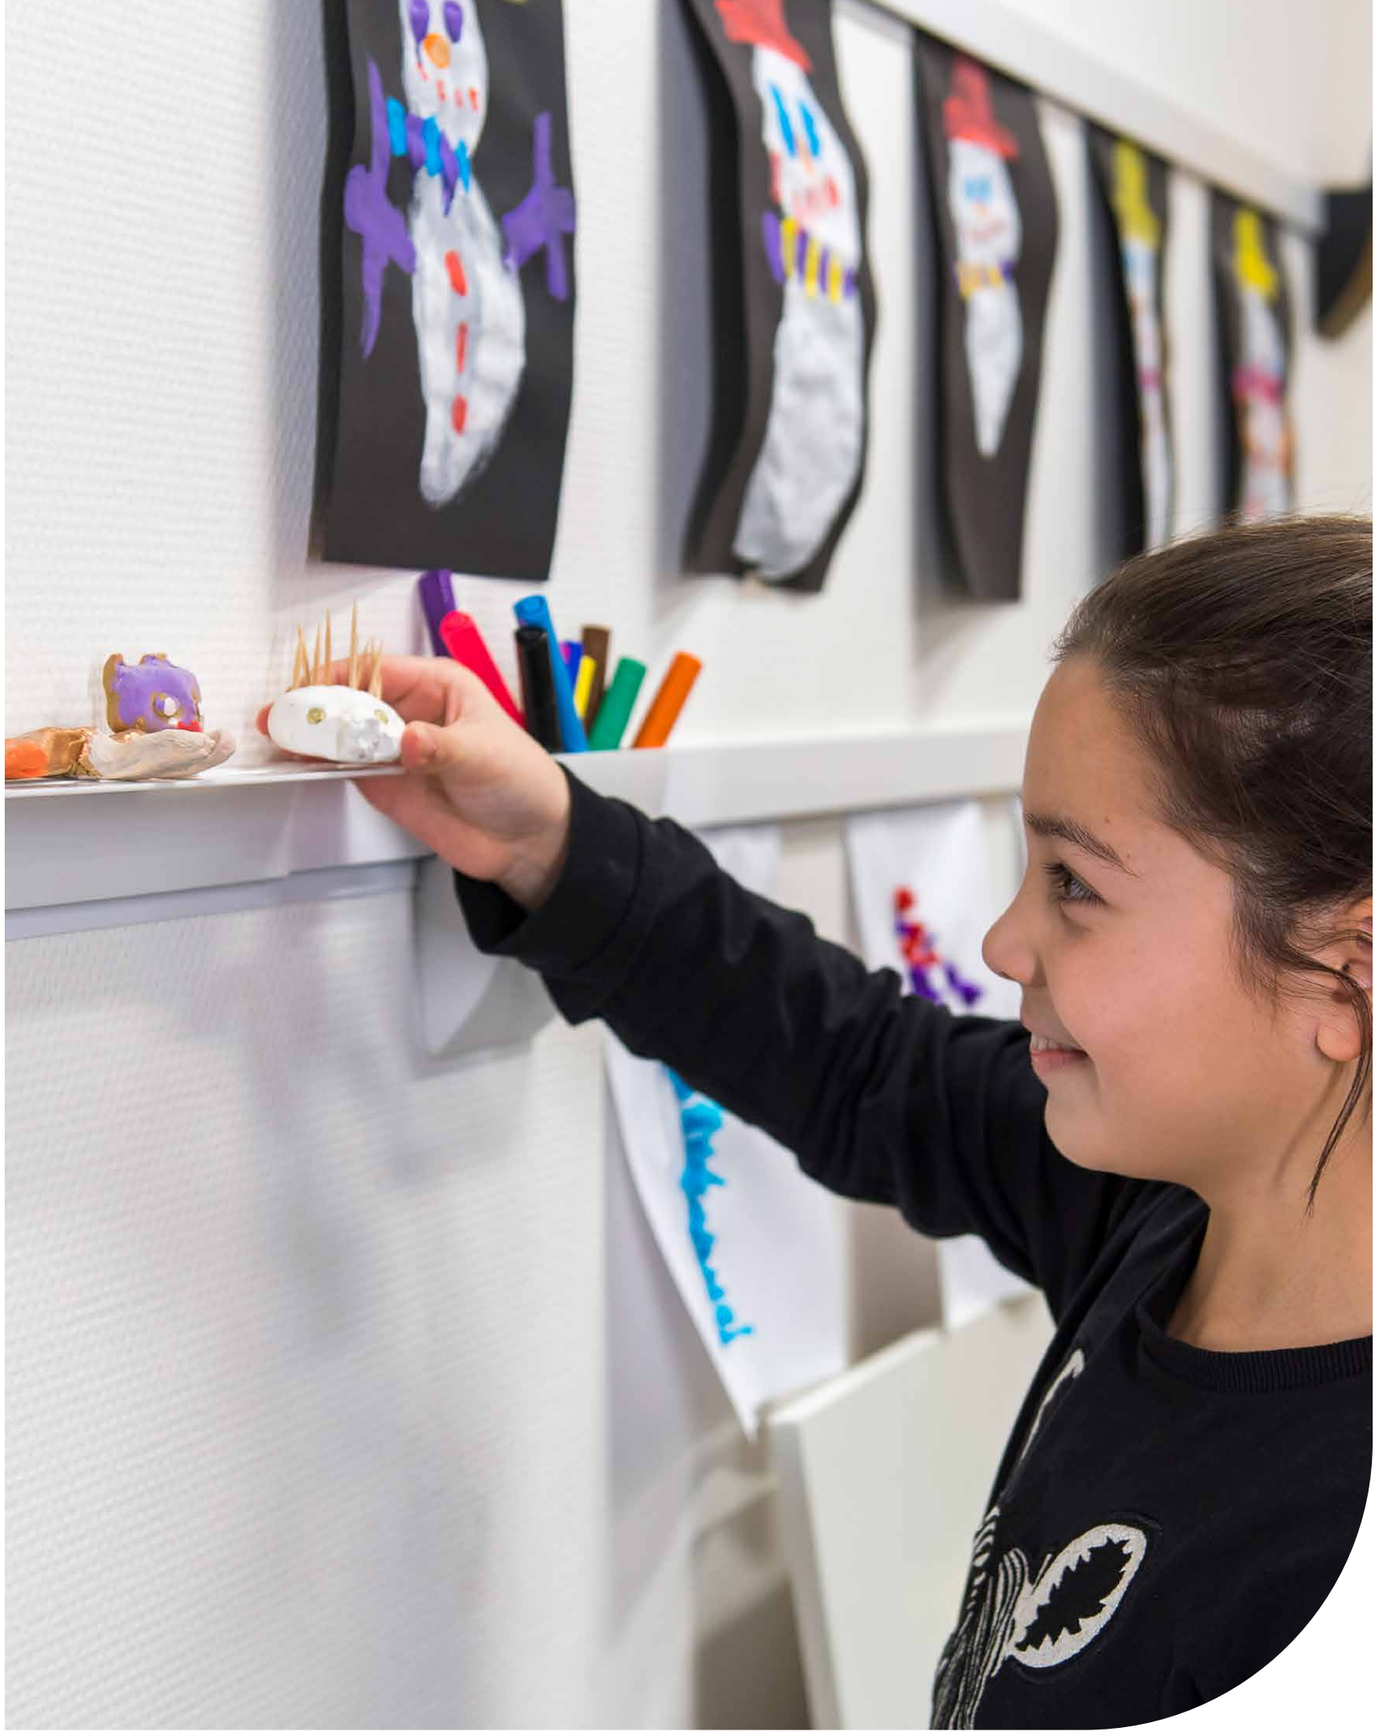
SUPPORT CLIP
the perfect presentation

For the self-made works of art

Hand-crafted artworks deserve a stage, even in the classroom. From clay figurines to Styrofoam creations, every masterpiece now gets a place thanks to the Info Rail with the special Support Clip.

The Support Clip adds a new dimension to the Info Rail. Every child can use their own clip to present their three-dimensional artworks. A simple but effective solution that really brings creativity to life. The clip is easily clicked onto the rail wherever you please.

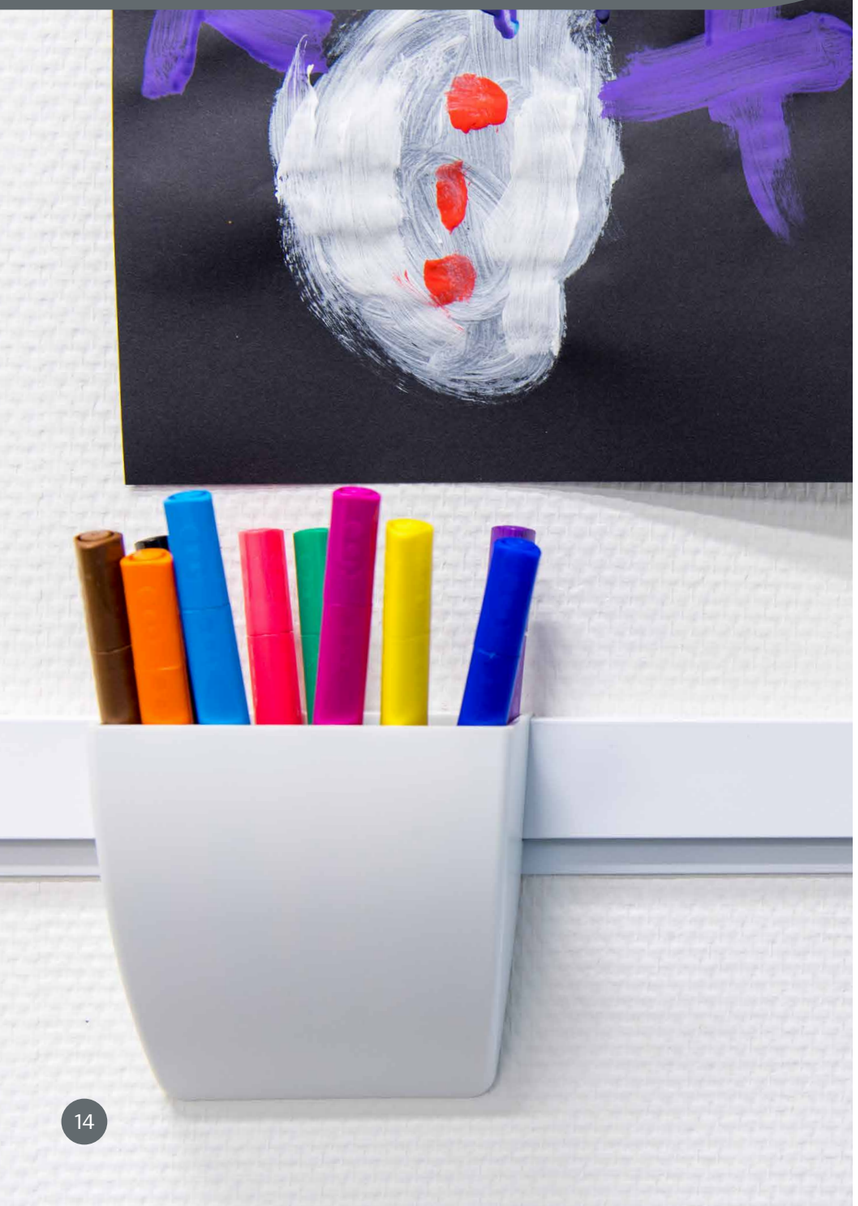
With an area of 6 cm wide and 25 cm long, the Support Clip offers enough space for any craft. A clever way to showcase creations neatly and stylishly, without fuss. Perfect for a classroom full of artwork that deserves to shine.



STORAGE CLIP
a handy extra storage compartment

At school, there is plenty of crafting, drawing and learning. But where to put all those markers, pencils and scissors? How convenient would it be if everything had a fixed place but was still easily in reach?

The Storage Clip makes it a reality. This clever tray easily clicks onto the Info Rail with one hand, right where you need it. Fill it with markers, pencils or scissors, and the children can easily access these themselves. A simple solution that ensures a tidy classroom as well as fun for the children.



INFO RAIL MAGNETIC
the ideal classroom presentation system

The Info Rail Magnetic takes classroom presentation to a new level. In addition to the familiar functions of the Info Rail, this system is equipped with a magnetic strip on the front. Perfect for displaying drawings, crafts, cards and teaching materials on the wall neatly and playfully.

Double rubber clamping keeps documents firmly in place, while the magnetic strip on the front offers additional options. Use the included mouse-shaped magnets to present materials easily and creatively. From colourful drawings to important teaching materials - everything is given a prominent and organised place.

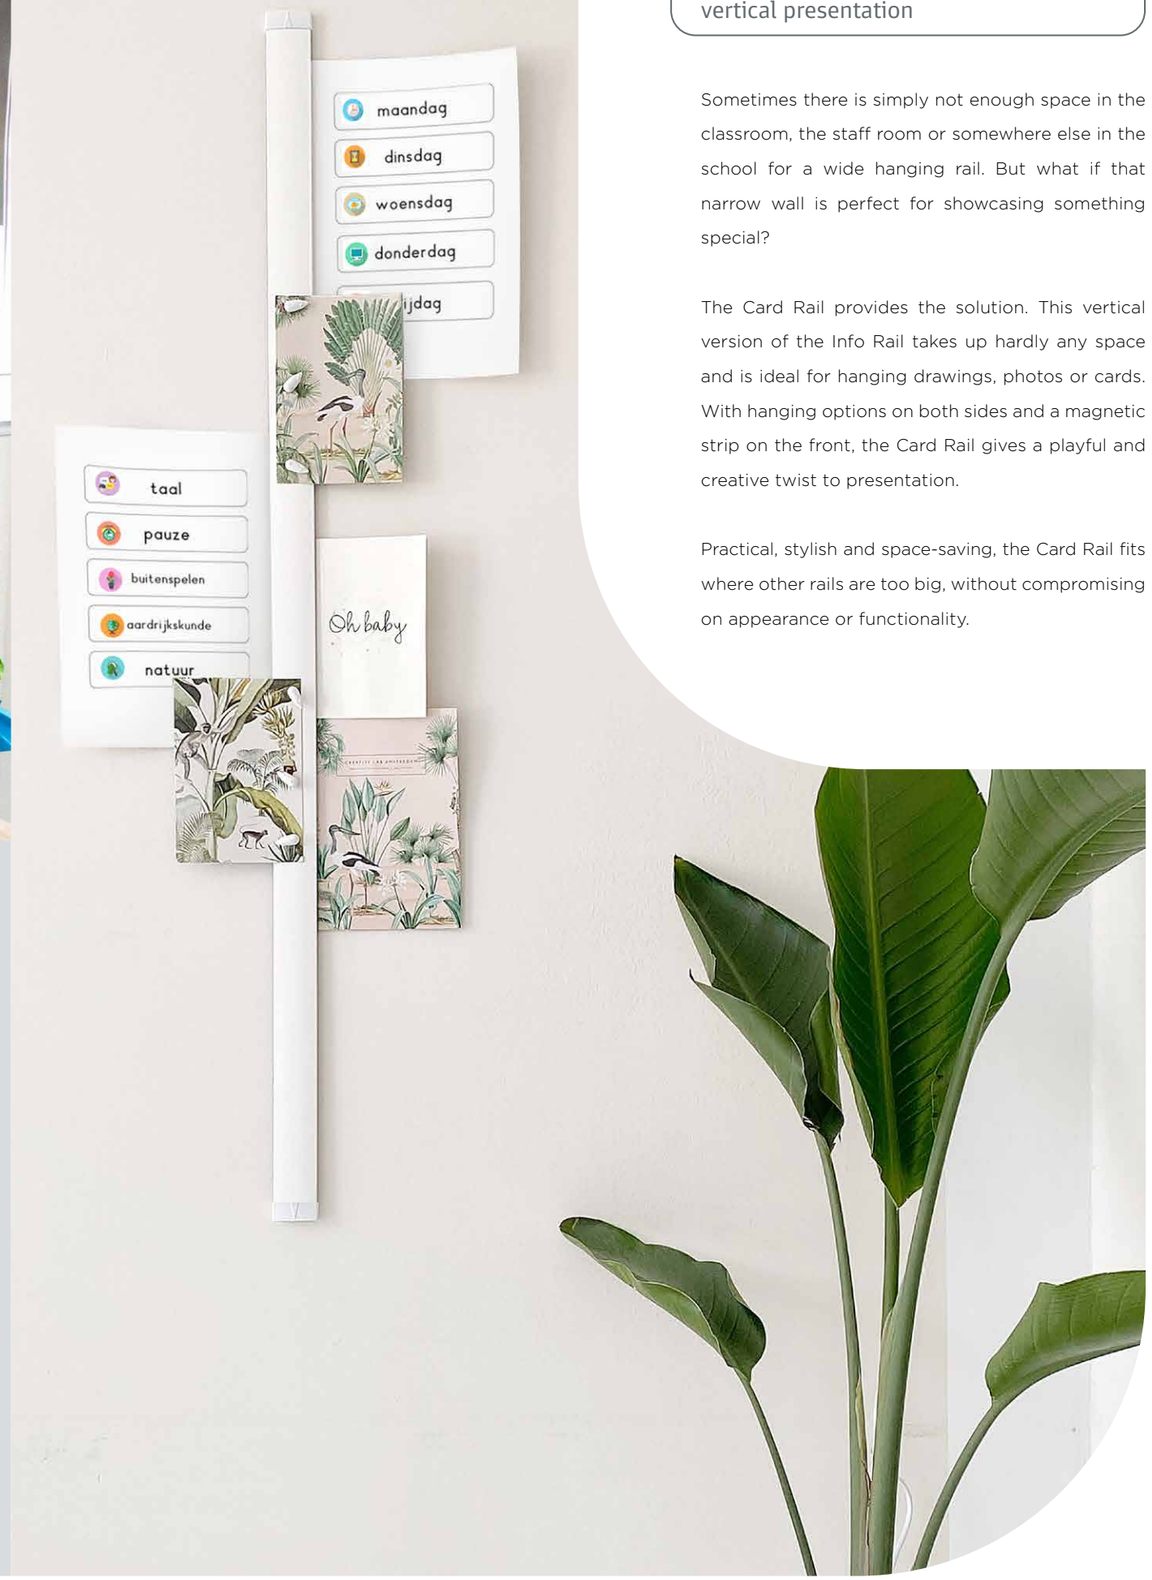
The Info Rail Magnetic combines ease of use, versatility and a playful touch. A smart solution for any classroom that inspires and invites learning.

CARD RAIL
vertical presentation

Sometimes there is simply not enough space in the classroom, the staff room or somewhere else in the school for a wide hanging rail. But what if that narrow wall is perfect for showcasing something special?

The Card Rail provides the solution. This vertical version of the Info Rail takes up hardly any space and is ideal for hanging drawings, photos or cards. With hanging options on both sides and a magnetic strip on the front, the Card Rail gives a playful and creative twist to presentation.

Practical, stylish and space-saving, the Card Rail fits where other rails are too big, without compromising on appearance or functionality.



INFO RAIL+

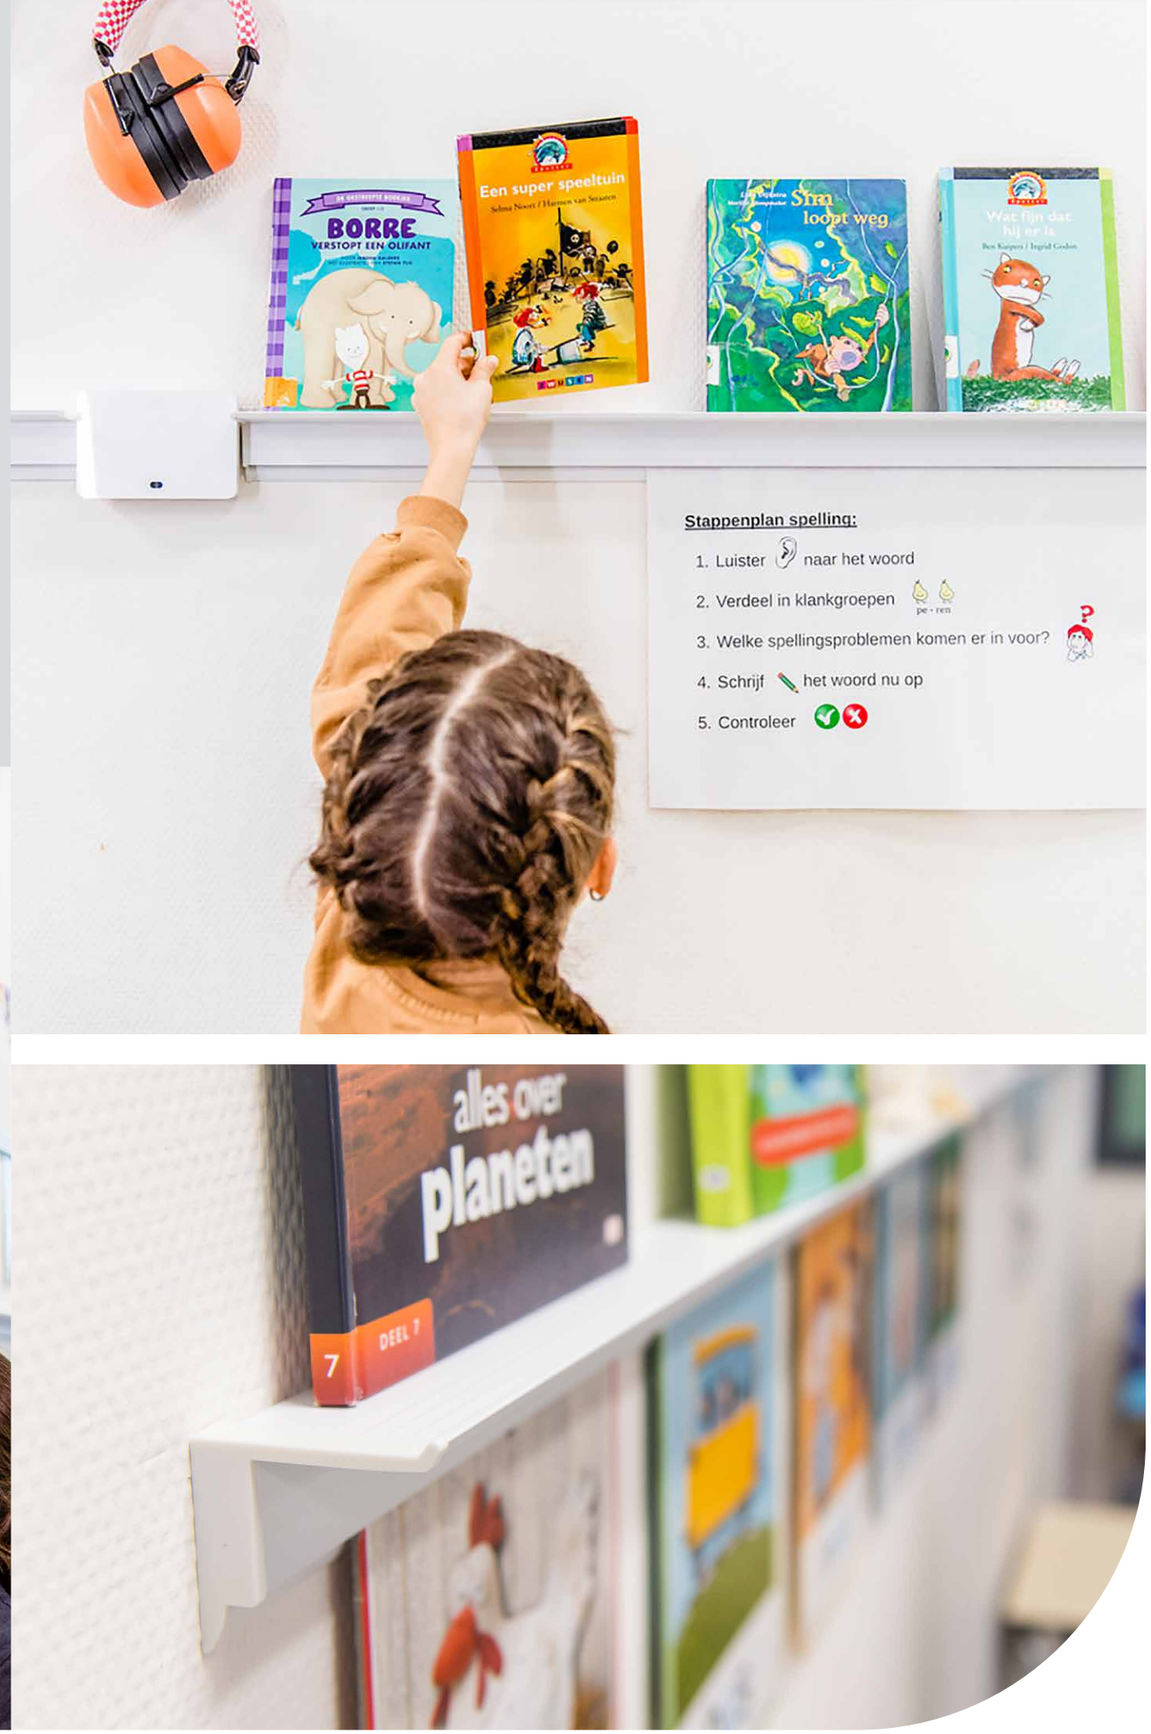
versatile presentation system

Multifunctional wall-mounted presentation system

School walls are used intensively. From drawings and crafts to teaching materials and reading books, everything deserves a place where it can be neatly and conveniently presented. That's where the Info Rail+ comes in.

The Info Rail+ makes presentation even more versatile. This system is not only suitable for hanging drawings and documents, but thanks to the 6 cm wide surface on top, it also provides space for books and three-dimensional work such as clay art. Teaching and reading books can be easily presented and put back, perfect for little hands.

The Info Rail+ is a flexible and practical system that prevents damage to walls. Switching between materials is quick and effortless, making the rail an ideal solution for a dynamic school environment. The Info Rail+ is there for everything that deserves a place.



TENSION WIRE SET

a horizontal tension wire for drawings

In many classrooms, students' drawings and artworks are happily hanging on wires with pegs, a fun and creative way to brighten up the classroom. But often those wires are secured with drawing pins, which is not always safe or a neat look

.

The Tension Wire Set offers the perfect solution for this. This safe and durable system is easy to mount at any length and allows for a tidy and professional presentation of drawings. Thanks to the choice of two types of black clips, each work gets a secure place on the wire. A stylish yet practical way to let children's creativity shine, safely and hassle-free.

PICTURE HANGING SYSTEMS
a durable solution

n schools, walls are used intensively. They not only support lessons, but also present creativity. From paintings to whiteboards and from maps to projection screens, a flexible hanging system is the ideal solution for presenting everything clearly and neatly.

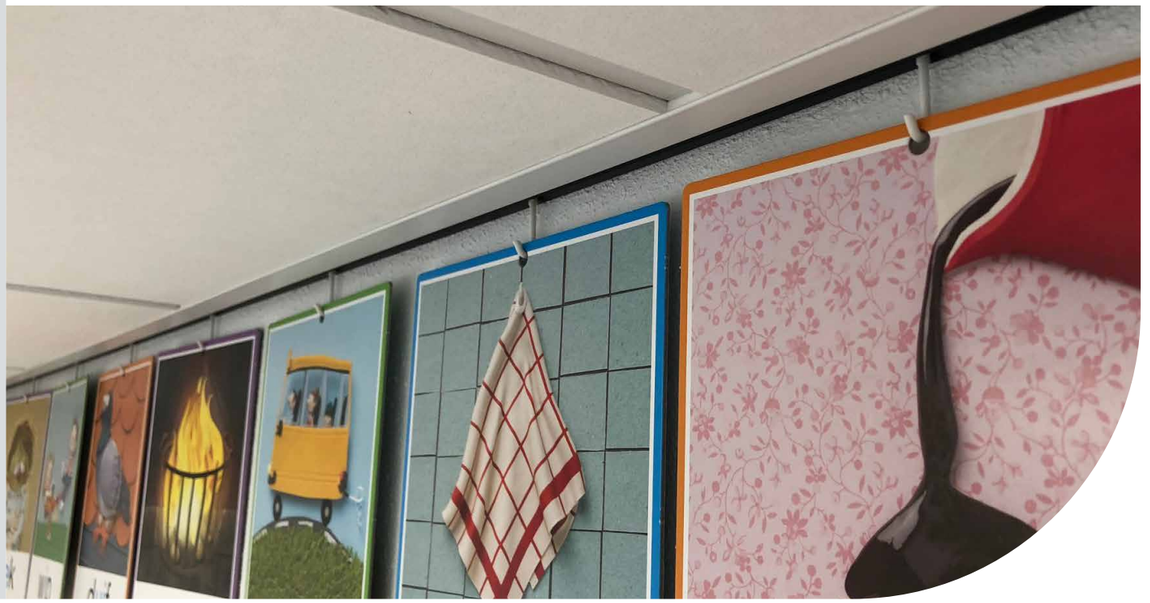
Artiteq's picture hanging systems consist of rails, wires and hooks that are easy to assemble. With a one-off installation, you are ready for the future. The Click Rail is perfect for wall mounting near the ceiling, while the Top Rail is ideal for schools with suspended ceilings. This keeps your space flexible and user-friendly.

TWISTER HOOK
for reading cards

The Artiteq-designed Twister Hooks, combined with one of our hanging rails, offer the solution for flexible working with the cards of the Safely Learn to Read method.

For classrooms with suspended ceilings, the Top Rail is ideal and can be mounted neatly next to the ceiling. Does your school not have suspended ceilings? Then the Click Rail, which is easily attached to the wall, is an excellent choice.

The Twister Hook simply clicks into the rail and can be moved effortlessly. Within a second, the cards hang in place, ready to help children take their first steps in learning to read.



PRESENTATION MEDIA
for hanging whiteboards and notice boards

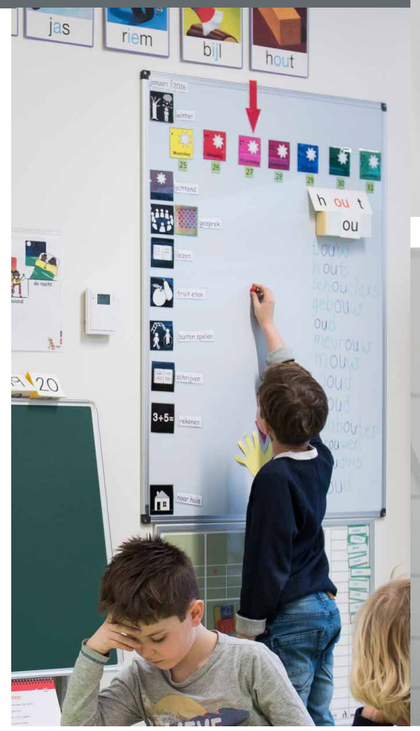
Schools, including yours, are keeping pace with developments. As teachers of the next generation, you choose progress, but also continue to value proven resources. Although an interactive blackboard is now indispensable in every classroom, traditional tools such as whiteboards, notice boards and glass boards remain favourites. At Artiteq, we combine the best of both worlds: traditional solutions, cleverly integrated into our modern picture hanging systems.

Our systems not only offer a safe and secure hanging solution, but are also extremely flexible. The hanging wires can be easily moved, so you can always adjust the layout to suit your needs.

These days, whiteboards, notice boards and glass boards have taken on a modern look. When it comes to colours, sizes and functionality, the possibilities are endless! The Six Square notice boards, for example, add a playful touch to the wall, while frameless whiteboards blend seamlessly with stylish interiors. For extra creativity, choose our Speech and Thought whiteboards, playful as well as practical additions to any classroom or office.

For hanging a whiteboard, Artiteq offers the special Whiteboard Set. This set makes it easy to hang whiteboards both horizontally and vertically. Combined with our hanging rails, you get a flexible solution, with the clamps ensuring stable placement against the wall.

Curious about the possibilities? Feel free to contact us - we will be happy to help!



SOLUTIONS FOR SUSPENDED CEILINGS
for hanging signage and decorations

Suspended ceilings are common in most school buildings. Nowadays, these ceilings are not only functional but also available in different styles and colours, such as classic white or modern black. For these versatile ceilings, Artiteq offers practical solutions in the form of hanging systems and suspended ceiling hooks.

These systems allow you to easily hang paintings, frames or other light wall decorations. Whether it's an inspiring poster in the canteen, decoration in the staff room or informative signage in school corridors, our suspended ceiling solutions make it possible. Available in white and black, our hanging systems perfectly match any style. Curious about the possibilities for your school building? Feel free to contact us, we will be happy to help!
