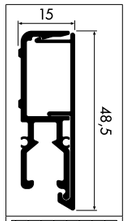
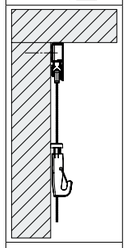
NEWLY R70 RAIL

100 kg p/m





10 YEAR WARRANTY

3 clips / m

installation video

compatible wires and hooks: pages 64–79

The Newly R70 Rail is a premium quality, professional wall rail developed for spaces where strength, reliability and discretion matter most, such as museums, galleries, corporate collections and high-end residential interiors. Designed to support heavy artworks with confidence, the R70 brings together structural robustness and refined aesthetics.

The R70 is engineered to carry a weight capacity of up to 100 kg per meter. The rail is mounted flush against the wall and ceiling, keeping the profile clean and virtually invisible.

This system is compatible with the 2.5 mm steel Twister Lock cables and the full range of our 1 mm and 2 mm hanging wires, including perlon wires and steel cables, offering flexibility for displaying both heavier masterpieces and smaller works without unnecessary sway or tilt.
